

Drawing Threads and Knots

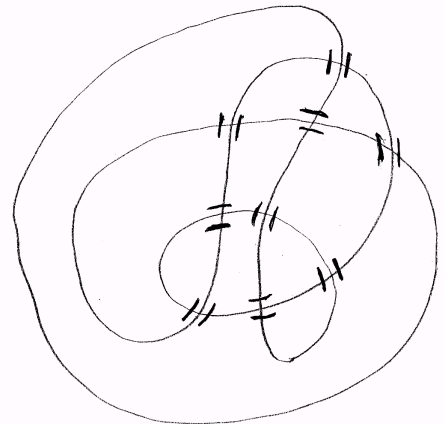

Step 1: draw a closed curve

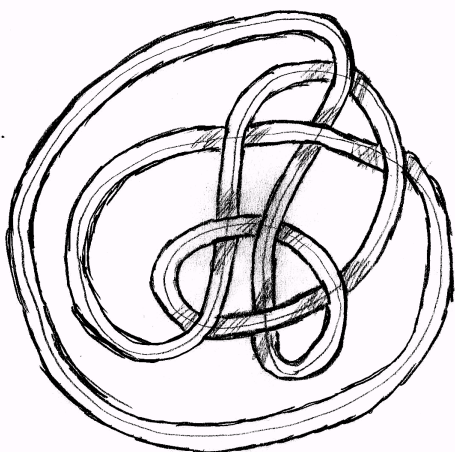

Step 2: along that curve draw alternating above/below marks

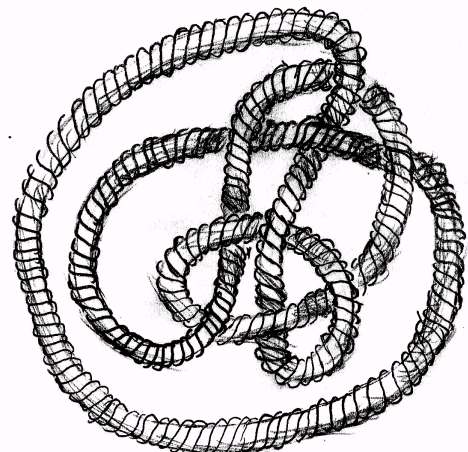

Step 4: step by step thicken the line respecting your above/below choices

Step 3: make marks until you worked through the entire line.

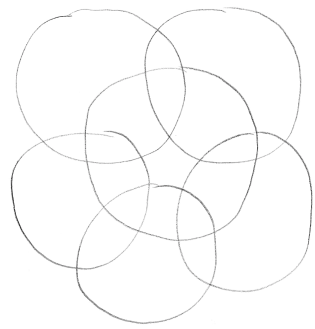

Step 5: repeat until you have worked through the entire knot

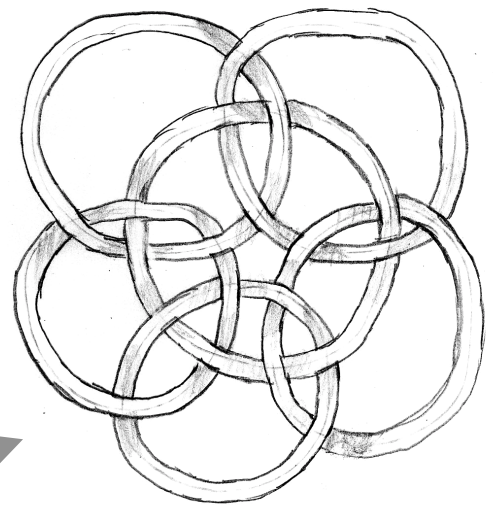

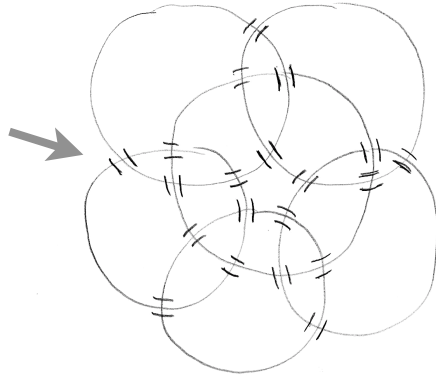

Step 6: add decorations if you want

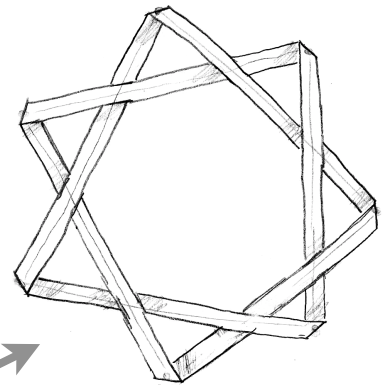

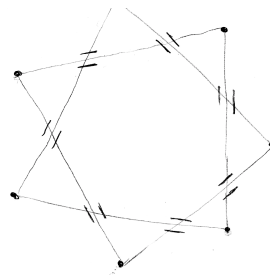

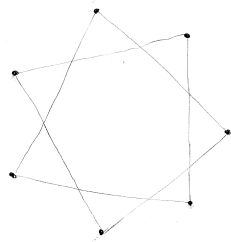

Variations

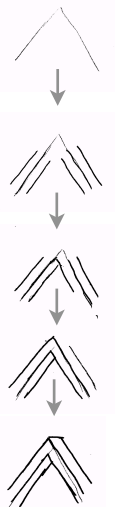

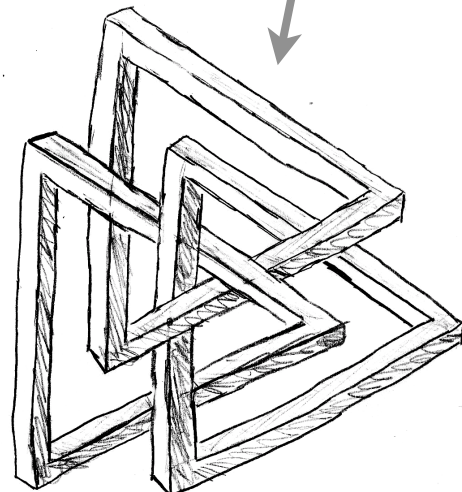

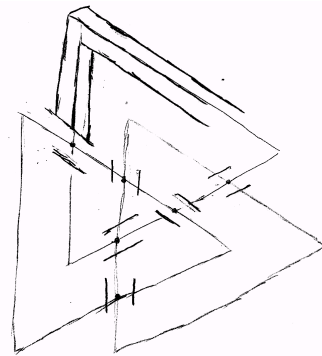

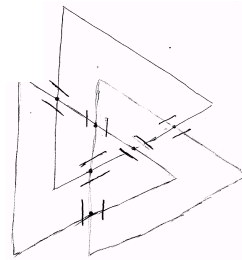

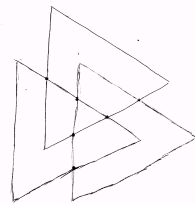

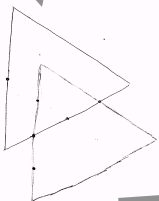

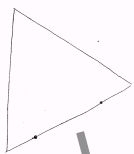

You can draw many interlocking curves

Star polygons create interesting knot work

Create very complicated geometric patterns

A roller coaster ride
